Dear A2A Supporters and Partners,

I recently started as A2A's Outreach Coordinator and I am grateful to be part of such vital and meaningful work.

Habitat connectivity is in a race against fragmentation. Daily, our region is under threat of being parsed and dislocated, leaving our wildlife and ecosystems stranded and isolated. However, we also have many recent successes to celebrate - including a number of land trusts, donations, and easements in the area, expanding and enhancing wildlife and biodiversity connectivity.

I hope to raise awareness among residents regarding the role that A2A plays in coordinating connectivity and conservation. A2A's function is to oversee the bigger picture and facilitate sympathetic partnerships as well as develop tools and resources and make these available to all partners. This is the only way we can attain our goal of ensuring there is a large movement corridor in Eastern Ontario and New York State. A2A may be behind the scenes, but like our work, we have an extensive connectivity that crosses national borders, keeping conservation efforts cohesive and efficient.

Please reach out if you have something to share with me or the A2A community at large: outreach@a2acollaborative.org.

I look forward to hearing from you.
Sandra Iseman
